"Our Past Is In My Way"

Visit "[Our Past Is In My Way](#)" on MotoLyrics.com

Our past is always present where my future is
concerned
And I'd found the doors all locked to me no matter
where I turn
I can't even build new mem'ries when your mem'ry's
here to stay
And I cannot face the future for our past is in my way
I can't go out with someone else and do the things we'd
do
And I can't even look ahead while looking back at you
I'm torn between tomorrow and the scars of yesterday
And I cannot face the future for our past is in my way
[steel]
I was so much stronger yesterday when you walked by
my side

But I'm weaker for you left me here and my heart within
me dies
What I was speak so much louder than what I am today
And I cannot face the future for our past is in my way
