(Jack Rhodes - Gertrude Cox)

Darling please don't make me wonder
Give my heart no cause to fear
Say you know our love's eternal
Tell me what I want to hear.

Say you feel the same old magic
That I feel when you are near
Whisper love words and sing me love songs
Tell me what I want to hear.

--- Instrumental ---

Others lips and arms may hold me
But no other could make me care
Let me always feel your love dear
Tell me what I want to hear.

Say you feel the same old magic
That I feel when you are near
Whisper love words and sing me love songs
Tell me what I want to hear...
