I'm so in love with you, it's forever
I'm never feeling lonely
baby, 'cause you're by my side
think you should be here tonight.
I'm going crazy and not really
Hoping I can taste your kisses all the time,

So rag me baby 'cause you make me feel so fine.
I just can't anymore

Refrain:

We will be in Heaven
We will be in Heaven
I'm dreaming of you
We will be in Heaven
I'm so in love with you it's forever, forever
We will be in Heaven

When I hear the talk of all my friends,
I'll have to make them seem

that a Love is built forever
they were all be turned in deep
thats an irret that I want and more and more
maybe we should do another time
We will be in Heaven

Refrain

We will be in Heaven

I'm so in Love with you babe
I'm so in Love with you babe
I'm so in Love with you babe
I'm so in Love with you babe
together.
