Baby I can see maybe what you are tryin' But not
denying to me
Baby I think it's sneakin' all of that freakin'When you
are right here with me now
Baby don't even got here since they are not fair
All of the things you have played
An' I'll look for some progress when I'm in a mess and
Won't be tearing on me, hey Chorus
Please tell me heaven can't wait
It seems so magical, tragical
Heaven can't lie
I feel you show me a must-see
Paradise to me
No better places to be
Please tell me heaven can't lie
I guess there's no better time that tonight You have
been really nasty, pretty, much naughty
So now I'm waitin' to see
Right here bein' in heaven you show our true
face'cause you can't hide it from me
Baby I will discover you
Ain't no lover courtin' me up in the sky
Baby gotta be better, give some hard work
I wanna see that you try Repeat Chorus
