I won't think twice, I am your baby

you will see

When it comes to love, I am what you dream of
fantasy

when it comes to sex, you can't be perplex

would you like to hear what I say (y)

I don't wanna wait for you today

you better listen up, oh baby (y)

gonna do the things my own way (y)

I won't think twice, I am your baby

I won't think twice, I am your baby

Tonight - you will do it right

you can't escape, no way (y)

if you're all alone, go get on your phone

and talk to me

later we will see, what's it gonna be

fidelity

baby please don't go astray (y)

if you wait too long, I can't say (y)

that my love's not getting to decay

come on over here to my place

I won't think twice, I am your baby.... (Refrain)

I won't think twice, I am your baby.... (Refrain)

I won't think twice, I am your baby.... (Refrain)
