"Let's Party"

Visit "[Let's Party](#)" on MotoLyrics.com

Been there in New York City
Hasn't been a party'cause I found a guy that took me
so much higher
He became my lover
Better than the other
Understood what turns me on is his desire They're
sayin' now I should not complain
But I need more of you in my veins Chorus
Gotta get it on in this world of mine
An' we'll be really rockin' till we're out of line
But you know that you'll have to be right on time
You can make me movin'Come on babe, let's party
tonight (In this world of mine) I can be a teaser
When I'm going deeper
Since I wanna see if you've got so much power
Love is what you're givin'Music can't be missin'I will
need a beat to energize your feelings They're sayin'
now I should not complain
But I need more of you in my veins Repeat Chorus (In
this world of mine
For this world of mine
To be right on time
In this world of mine) Come on babe, let's party tonight
Repeat Chorus But you know that you'll have to be right
on time
You can make me movin'Come on babe, let's party
tonight (In this world of mine) Come on babe, let's party
tonight
