[Verse 1:]

I am crazy that I ever thought
I like taking risks, getting caught
There's devil depp inside me,
that's why you always find me
Doing things I shouldn't do

[Chorus]

There are no rules
No rules that can be broken
There's no door that you can open
All you lovers get my meaning
I can't stop the way I am feeling
Why just doing wrong, feels so right
In my heart there other rules tonight
tonight

[Verse 2:]

We can play the patient and the nurse
You can show me where it really hurts
I can make your temprature rise,
i can take you up to new highs
You just need to let go

[Chorus]

There are no rules
No rules that can't be broken
There's no door that you can open
All you lovers get my meaning
I can't stop the way I am feeling
Why just doing wrong, feels so right
In my heart there other rules tonight
Tonight
oohhh i need it so

[Verse 3:]

Sometimes its chances must be taken
Common' I know you're tempted,
let me explore your senses, lower your defenses
ohhhhhh

[Last chorus:]

There are no rules
No rules that can't be broken
There's no door that you can open
All you lovers get my meaning
I can't stop the way I am feeling
Why just doing wrong, feels so right
In my heart there other rules tonight
tonight

There are no rules
No rules that can't be broken
There's no door that you can open
All you lovers get my meaning
I can't stop the way I am feeling
Why just doing wrong, feels so right
In my heart there other rules tonight
tonight
