"Will You Be There"

Will you be there when the fire turns ardour
will you be there when
'cause it is more than a flame of the night
the sun is goin' down for good
will you take care that it's all right

My friends and I were in a party mood
'cause we were sick of all that solitude
I saw you first down in our favourite club

and you loved me 'till I cried (ied)
and showed you what I've got
bought you a drink

Will you be there.... (Refrain)
I'm so afraid that you will leave again

a one-night-stand was what I had in mind
my soul was searchin' for a suchlike man

now my emotions give me different signs
Will you be there....
will you hold me when I cry (y)

Will you be there....

Will you be there....
