"This Time"

Visit "[This Time](#)" on MotoLyrics.com

Why do I care about you
Even though you hurt me?
Why do I feel this pain
When I don't think of you?
Promises replaying in my mind
I turn my head from
What is plain real now
And yet you end on up giving a less than perfect you

The tears I cry as I lay down to sleep,
Are the tears for all the memories you left in my heart
I hope someday you'll be here with me
To wipe off my tear
I need you in my life and I'm afraid to be alone baby

Let my heart convince your heart,
My love
That it would be better this time,
If we try
Give our love the chance to soar again
Just like in the past
One more chance to try and make it last

I love you baby and I need you baby
Without you in my life,
Don't know how to survive
This loneliness I feel inside
Promise you I won't change my love,
My all... I will be the same

Sometimes I feel you,
Maybe you are thinking of me? or maybe just a memory
of how it used to be
It hurt so much the last time I replay
All our hugs and wonderful kisses
I've never felt such a big loss
Until you said goodbye

Being alone tends to drive me insane
I don't know if I can take this pain
You wrote in my heart
Tell me, will I ever love another

You in this life
I can't get over you and
I am really missing you baby

Let my heart convince your heart,
My love
That it would be better this time,
If we try
Give our love the chance to soar again
Just like in the past
One more chance to try and make it last

I love you baby and I need you baby
Without you in my life,
Don't know how to survive
This loneliness I feel inside
Promise you I won't change my love,
My all... I will be the same

It's so hard for me
To get you off my mind
And my tears are only thing
I'll ever try to hide
Give us a second chance
To feel the love again
Maybe we could make it this time,
Hear me, my love

Let my heart convince your heart,
My love
That it would be better this time,
If we try
Give our love the chance to soar again
Just like in the past
One more chance to try and make it last

I love you baby and I need you baby
Without you in my life,
Don't know how to survive
This loneliness I feel inside
Promise you I won't change my love,
My all... I will be the same
