See the moon above the mountain watch the stars light  
up the sky

Oh wherever you are darling do you feel the same as I  
Tell your heart you know that I love you and I never see  
us to care

Oh wherever you are my darling if I could I would be  
there

[ guitar - trumpet ]

Do you wherever long to see me do you wherever feel  
this blue

Oh wherever you are daling do you know that I missing  
you

If I could feel your arms all around me if I could hold  
you close to me

Oh wherever you are my darling there my heart will  
always be
