You know sometimes when I'm home alone
I just don't feel like sleeping by myself that night
I think I'm gon' phone in, I'll call the one
That I really wanna be with is you, baby
Please don't leave me by myself tonight

Girl, can I
Come over to see you tonight?
Oh, I'm so lonely and I am in need
Of only your company tonight
Picture this

Just like a beautiful cup
That's left alone in the cupboard
You can't but help feel
It might confuse you
But it can't give nothing
To someone this thirsty

I need your love
And hope you need my good lovin' too
I'm singin', ohh, oh

Oh, baby
Oh, lady
I need you like stop-light need a checker
Like a roller-coaster needs a hand
You might understand this

I need your love, girl
And I hope you need my good lovin' too
'Cause everyone need the kind of love
That they come running to, yeah
And tonight my body desires
To be with only you

Oh, oh, oh, ohh, ohh, girl
My body is sick right now
And you are the only medicine that can help me, girl
I gotta a fever
'Cause, baby, I need you

Hold me in your arms tonight

I need your love, give me, baby
And, oh, I hope you need my lovin' too
'Cause everyone need the kind of love, yeah
That they come running to, yeah
And tonight my body desires
To be with only you

Baby, let's give it a chance
We don't need no romance tonight, girl
All we need is each other, girl
We can let it take on love
Baby, all I need is your love tonight, girl

We can be on it
(Baby, come over tonight)
Burning, baby
(Come over tonight)
Such a lovely
When my body's on the floor

I don't wanna ruin this
(Baby, come over tonight)
Ruin it, oh, girl
(Come over tonight)

Yeah
(Yeah)
Yeah
(Yeah)
Yeah

(Come over tonight)
Yeah
Yeah
(Baby, come over tonight)
Yeah
(Come over tonight)
Come on, baby
