There's one thing I'm sure about  
I can't live without your love, believe you me  
I've tried to before, but only ended up  
Coming back to your door

Wanting more of your gentleness  
The way you take good care of me, you're the best  
I had to be unconscious, trying to front on you  
Lately I've been out pricing rings, so I can put one on  
you  
'Cause it's long overdue

Cross my heart  
I swear, I will love you forever  
Through it all  
I'll love you for worse or for better

One more thing, I'm certain of  
Is I lose track of time every time we're making love  
Even after falling out, we spend more time making up  
What could possibly be better than waking up, to you

I want you to know that I never met  
Or known someone as beautiful as yourself  
Starting with your heart, moving to every body part  
You're a work of art, worthy of a precious stone, so I

Cross my heart  
Swear that, I will love you forever  
Through it all  
I'll love you for worse or for better

From here on out, it's all about me and you  
Others have made it, we can too  
Looming oh, so bright  
Is our future  
Is our future, come on, come on  
Come on, come on, come on

Cross my heart  
I swear that, I will love you forever  
Through it all

I'll love you for worse or for better
