I love this song. I listened to it and wrote down the words. I might have a few incorrect. However, sing along with it and make changes as needed. Good luck!

Don't Go

Calvin Richardson

(Speaking)

In the mist of the pouring rain

All malekum misfits of the atmosphere are purified

Like all the hurt and pains of life strains

Are removed from the body of a beautiful woman

Through every tear held back that she don't cry

Your eyes like heaven's windowpane

With the strength of an athlete

With a touch so gently

Brought mighty mighty Hercules to his knees

God told Adams no

Eve made him say; yes, yes

Her smell so sweet

Her body waves so unique

Makes a man complete

Surely I'll eat for just one more taste of your nectar

Please don't leave

Verse

What's the problem now girl

Thought you said you'd be with me from now

Through thick and thin

And I took your word girl

Are you contemplating leaving me (say no) aah no

Your love is like the petals of a rose (don't go)

Insecurities get the hell away from me (yea, yeah)

pleaseeeee (don't go)

Chorus

I just wanna praise you

Let me take you to Jamaica girl (don't go) just

don't go

I hope these feelings are contagious

Thank God everyday he made you girl (just don't go)

My world would be incomplete babe

If he took you from me baby (don't go)

No, no, nooo (umm hum)

Verse

Iâ€™ll do anything to see you smile (ooh ooh)  
Sunday morning Iâ€™ll be  
Making silly faces up in church  
Till the preacher kicks me out (just to see you smile)  
Guess what Iâ€™m trying to say is  
Iâ€™ll be a clown (woo huh)  
So you donâ€™t ever have to think about our love  
Baby you can trust  
When everything around us falls down  
Standing it is us  
Still love (na na na na)  
Chorus  
I just wanna praise you  
Let me take you to Jamaica girl (donâ€™t go) just  
donâ€™t go  
I hope these feelings are contagious  
Thank God everyday he made you girl (donâ€™t go)  
donâ€™t go  
My life would be incomplete babe  
If he took you from me baby (donâ€™t go) donâ€™t go  
No, no, nooo (umm hum)  
I just wanna praise you  
Let me take you to Jamaica girl (donâ€™t go) just  
donâ€™t go  
I hope these feelings are contagious  
Thank God everyday he made you girl (donâ€™t go)  
donâ€™t go  
My world would be incomplete babe  
If he took you from me baby (donâ€™t go) donâ€™t go  
No, no, nooo (umm hum)
