You got me high, I can't lie
I wanna make you feel alright tonight
Said you got it going on
What I feel is so strong
Oh, yeah

Standing here smoking on a cigarette
Fantasy of you just like that
You've got me on a natural high
You're tempting me girl, I can't lie

Tell me what your name is
You say you've got a main squeeze
And it's only he
That can hold your eye

Girl, I'm not mad at you
Do what you wanna do
But if I had my way, really had my way
You'd stay and play all day

You got me high, I can't lie
I wanna make you feel alright tonight
Said you got it going on
What I feel is so strong
Oh, yeah

Go head with yourself
If it was up to me you'd be by yourself
Go head with yourself
If it was up to me you'd be by yourself

Girl, I like the way you got your hair done
And the sexy way you say you gotta run
'Cause you got a man at home
And he always check your phone

And you gotta be there on time
When he checks your phone
He won't find my number
This time
So

You got me high, I can't lie
I wanna make you feel alright tonight
Said you got it going on
What I feel is so strong
Oh, yeah

Go head with yourself
If it was up to me you'd be by yourself
Go head with yourself
If it was up to me you'd be by yourself

Uh, I'm on some old sh
I'm on some girl a brotha really need to know sh
(Let's go)
Yeah, I know you gotta man Ms.
But I've been down for a while and girl you're flawless
(Come on)

Every other day I'm thinking what is this?
Damn, why am I in love with another niggas chick
Head over heels, girl you got a niggas brain twisted
Straight spliffed my eyes red

You got me high, I can't lie
(Said you've got me so high)
I wanna make you feel alright tonight
(And I wanna make you feel alright tonight)
Said you got it going on
What I feel is so strong
Oh, yeah

Go head with yourself
If it was up to me you'd be by yourself
Go head with yourself
If it was up to me you'd be by yourself

(Girl, you got me high)
You got me high, I can't lie
I wanna make you feel alright tonight
Said you got it goin' on
What I feel is so strong
Oh, yeah
