"It's Over"

Visit "[It's Over](#)" on MotoLyrics.com

Long ago in days gone by
It was much simpler for the guy
And when The Cure sang "Boy's don't cry"
I said I had something in my eye
You were right when you said I was wrong
It's over
And right before the storm I told you everything
I know that's not good form but feeling is the most
peculiar sport
I might get bored but I could never tell you that it's over
Spent too long staring out for stars
I lost control and crashed my car
I hadn't even got that far
Left my good fortune at the bar
You were right when you said I was wrong
It's over
And right before the storm I told you everything
I know that's not good form but feeling is the most
peculiar sport
I might get bored but I could never tell that it's over
It's over.
