[Verse 1:]

I don't wanna let you down
But I cannot have you hanging around
Hope you didn't fall for me
I am somebody that you could never see

[Chorus:]

Never been like this before
Tell me that there's something more
There never was a miracle in the snow
Should've let you know
Before I let you go

[Verse 2:]

You know I didn't act my best
I always thought I was a cut above the rest
Cos when you've been hurt yourself
Somehow makes it easy hurting someone else

[Chorus]
