[Verse 1:]

I'm sorry that I fucked things up
And I'm sorry that sorry is never enough
But still I'm sorry I screwed your plans
But if everything's cool then I know not we could do
Yeah let's walk down to the school
We can watch the kids run home
And pretend that we're alone
Just like we used to be then

[Chorus:]

But it's harder to go back right now
Cos you never really know how
And the things that you once knew then
Go and change and then change again
But it's harder to go back right now
Cos you never really know how
And the things that you once knew then
Go and change and then change again

[Verse 2:]

I'm sorry that I wasted your time
And I'm sorry I wish you'd go waste mine
But that won't happen (won't happen) cos you're too
nice
And the things that you do that I always thought were
cool
Now I know it's only you so it's me that's been the fool
Cos I never even knew that's why I hate myself right

[Chorus]
