Started a fire  
Secret admire  
Stolen exchange, is measured  
And I hope you come around

Coming and going  
After a moment  
Falls into sky  
Erupted and glowing  
I hope you come around  
I hope you come around

Just like out of something  
Comes out of nothing  
She ain't a drop dead  
Yes! she's different

twitch  
Is Roxanne a mesh  
She's keeping a fan around me with wish  
And I hope you come around  
Brother and sister  
Sister have a brother  
burden each other  
I hope you come around  
I hope you come around

Just like out of something  
Comes out of nothing  
She ain't a dropdead  
Yes! she's different

Like she's like a comet  
Like she's like a comet  
Like she's like a comet  
Yes! she's different

twitch  
Is Roxanne a mesh  
She's keeping a fan around me with wish  
And I hope you come around

Coming and going  
After a moment  
Falls into sky  
Erupted and glowing  
I hope you come around  
I hope you come around

Just like out of something  
Comes out of nothing  
She ain't a drop dead  
Yes! she's different

Like she's like a comet  
Like she's like a comet  
Like she's like a comet  
Yes! she's different

Yes! she's different  
Yes! she's different  
Yes! she's different...
