[Verse 1: El Eloh]

I am he who walks beyond the cycle of Tan
A guinea systematic survey
On the heavens long before the spells of Kimet
I had advanced cosmos journey apologist
Substantiate statements
I commands the aspects of creation
Astronomers can't even interpret my ancient civilisation
Of Andromeda
The Dragon of Dracos come touch the inner sun
I went forth, a life force out of the core of Epsu
Bring forth the possibilities of solar energy into infinity
Like a Nimbo; endless, trapped it, Kingu;
A myth too ignorant Like the Sumerians
Explorer of the solar system like Galileo
Bring the mist of Mahabharata
Celestial God symbolic to the disagreeable complex
mathematics
Of the Hebrew bible
Receive and transmit the letters of the Rasqiniaans
Who have seen the 3rd suns
I am like Milton Milankovich
Who outline the theory of ground philosophies
Messiah of all biblical tablets
Watch how the process of creation
Links with the measurements of Tan
Scientifical like a geologist
I bring the geological changes to the world
Like the prophecies of the Book of Revelations

[Verse 2]

The compartment allies
Now my device shatters the fusel anomas
And for my dialectical, destroyed innocuous
sinconquent
Travel beyond 5 dimensions
A cipher cytoplasm or phantasm
An Orc's sight;
Antithetical to atoms
I leave you vacuous like an Organtoron, pulses
Facilitate my brain waves, determining what planet I'm

on
CyberTron transmit my Mhakabaraso over the sea of
influence
Never neglect My lobular units
Stereo-material movements
Painfully Cranials statisticals giving your Cerebral
Cortex
Damaging Demigods
Crushing egos, into which a wench began by
Extracting a Trans-cordial
Connections of Macros-manic animals
Caves of sleek stature, once sabbatical
Once bring drama
I'm bright on harrowing lava
Within the Plexus from my anatomical
It gets darker
A sense of urgency
Enters the atmosphere with my excursion
In this Microcosm, a third version!
Specifically a generation
Of Mutated
Warriors from the Nether;
That's 'Neva Antiquated'
My flux is like somatic stimulation
As macro-electrolytes converge
Eternal recurrence
My mentals merge; it's cyclical
But it revamps it's own thesis, Reaching
The premium blend in the communion

[Verse 3: Rasul]

Follow me beyond the cloud
In the stratosphere, to the House of El Huul
It should lead you to a place opposite my heavenly
throne
In the temple of ancient Kimet
Who discovered the wonders and the 24 elders
These beings, the Rasqiniaans
Come to enlighten you
With supreme Mathematics
Dramatically stood
12 disagreeable
12 agreeable
7 feet tall in diameter
These elders sit
On the flight in the craft Niburu
Passing through the universe density levels
Heading straight for the wrath of Andromeda
Elliptical physical galaxy
Containing beings in the line of Dracos
Stomping on negative snakes like Broncos

Create magnetic field around my aura
Incapacitating ships
Negative energy creates the spiritual slaughter
Where you dwell in the physical world is horror!
My mind returns to El Yeum
To inform the elders of the incident
In case of the need for assistance
To return to my epic form
From my physical;
And see my soul arise into a sham
Hitting the arcs of Cumulus clouds of Annun
I left my image of a crop circle in the form of a
galactical star map
Perhaps to another plane of consciousness

[Verse 4: Ikon The Verbal Hologram]

Through a series of psychological tests
I have been declared a demon
Traveling through dimensions fatal weapons leave you
bleeding
Dissecting gray matter, doesn't matter in my cathedral
But how could you stand my timberlands in your
cerebral
Faces of space probes be scattered through my mental
Acoustics in my chamber just endanger instrumental
Fundamental rhythms are symbols of paternal power
Get devoured, by my infinite skills to disappear
Getting lost in the holocaust that rage between my ears
Complex like gravity
Tragically and mathematically
I defeat ya squadron black magically
Analyze the tangle
As you get mangled by my triangular rhythms...
Systematic rotations of my words cause cataclysms

[Verse 5: Breath of Judah]

In the farthest universal
At your communion Neffum council
Beings come to some planets in your galaxy
That were most frequently visited
Because life existed there
In various forms and deities it was
Why they explore mars
Gives meanings
Ahnk is Jah, foremost to the firm-land
Super friends of man
Fore-propheisise sight
Tight with a photon of light
Rubber bandâ€¦!
Others in Orion, skies or heaven
Star sections, constellation

Ploughing towards us
Lending aid to help our Taurus
Routine, orbit on the slate, clean
Took a thousand
One fall sure four
Equinox a birth time deemed;
The team of thirteen
Searching our rich natural resources
And minerals
To take back after retrieving
Our responsibilities are fulfilled!
Like the Onus of Annun!
And En Yil!
So build the unstoppable force of Evol-u-TION!
