The sun went down  
Before I knew it, we were lost in the covers  
Foolin' around  
If there was any way for you to be a better lover  
Well, I don't know how  
From your fingertips  
To your every kiss  
Sets me on fire

Chorus:  
Girl, you feel good  
Girl, you feel right  
Damn! You feel good tonight

Well, the sun came up  
And the world was brighter than I'd ever seen it  
Must be love  
'Cause the day was gone before we even knew it  
The beginning of another night  
Holding you tight  
I can't let you go

Chorus

It's your fingertips  
It's your every kiss  
Sets me on fire

Chorus

Oh, Damn! You feel good  
Damn! You feel right  
Oh girl, you feel good tonight
