Used to like the sound of the rain  
And feel your arms around me  
Together we go insane,  
But I wake up to where I should be  
Iâ€™ve longed for the wind,  
They touch me through my feelings  
And youâ€™ll never know till they begin,  
What you want is really what it means

[Chorus]

Donâ€™t wanna be forever blue  
â€™Cause I deserve some love thatâ€™s true  
Finding it the hard way  
And wishing for it everyday  
I guess I was wrong to want you, yeah  
â€™Cause Iâ€™m afraid, Iâ€™m afraid, Iâ€™m afraid  
To be forever blue

Gonna find some other girl for me  
This time it will be just like the wind  
Coming at the time it must be  
And blowing to where I should be  
Iâ€™ve longed for the wind,  
They touch me through my feelings  
And youâ€™ll never know till they begin,  
What you want is really what it means

[Repeat chorus]

[Bridge]

Donâ€™t wanna be alone  
I need someone to hold on to  
And share my dreams with a love  
A love thatâ€™s always true

[Repeat chorus]
