I saw this boy and girl tonight  
Reminded me of you and I in better days  
Then I saw him steal a kiss  
I realize you're all I miss  
And that's all it takes

Chorus:

I get that heart achin'  
On the edge of breakin'  
Never ending road that's twistin'  
Takin' me back to where we were back then  
I get that high lonesome  
Low down and then some  
Whiskey drinkin', what was I thinkin'  
Why I ever left you feelin' again

It's been forever since I've seen ya  
The grass still isn't any greener on the other side  
Someone told me, "Live and learn  
Play with fire and you'll get burned," and I did  
Now I'm paying the price  
When...

Chorus

I tell myself I'm over you  
Then I wake up to the cold, hard truth again and again

Chorus

I get that high lonesome  
Low down and then some  
Whiskey drinkin', what was I thinkin'  
Why I ever left you feelin' again  
Whiskey drinkin', what was I thinkin'  
Why I ever left you feelin' again
