[Planetary]:

In my historical oracle
I blast metaphorical
Editorials educating
In my territorial get torn
Heavily armed with seventy bombs
That'll blast devine like the heavenly song
Your men'll be gone
If they explore my deepest thoughts
I beat hearts in 2 then ask demons for chalk
I'm dreaming a stalk
MCees in the dark I walk
Blindfolded the mines golded
Watch how you talk
My styles is an art
Recognize lycially purity
All hell breaks loose like a mall with no security
The dopest vocalist
With my third eye, I focus with
I proceed, flow with the speed of an INDY motorist
There's more of this than wasted
Shiny chains and bracelets
I hit tracks my toungue weigh
For the brains to blaze in
Amazin angelic, tell it to your people
(Sample:Your mic and my mic, come on yo now equal)

[chorus]

Illedelph is like the sun 'cause we shine with rhymes
The Underground is like the moon you only see us at
times
And at times with light skies when the stars recline
Jedi Mind, Outer Space, coincide and combine

[Jus Allah]:

Raw poems, bury your body in catacombs
Rip your soul from your limbs
Like brims from Jip Jones
In the Twilight Zone we disperse cowards
Vampires that stalk earth on reversed hours
Nite cause we talk a different song

My latitude is God darts out my jaw
Leave eternal scars
You left breathing out of tubes
Straws by the marksman, harnessin
Science for the marvelous and the charlatan
Raps will make your parallax
My domain has power to block synapses I daze
War shots fight of by the army type warlock
Devil's Plan is to have you drip in the Clorox
Beast deceiving us ways devious possessing
My peeps to walk streets with stolen heat like
Prometheus
Elements rushin you back to hell again
Illadelphians crush your skeleton into f**kin gelatin

Chorus

[Ikon the Verbal Hologram]:
Don't ever come at me with war
I've severed scores of orators
Rappers fall onto all fours like minotaurs
With Jedi Mind and the planetary be bombin this
We stayin one step above you like a pharmacist
With Ominous detonate the bomb
Heads dread hallucinogenics in Vietnam
I spit a psalm create bombs like an Iraqi
Swear on the bible and then lie to Ecclesiastes

[Planet]
Assault and battery

[Ikon the Verbal Hologram]
Battle me that'll be what splits you
Store enormous amounts of energy in a crystal
We boa constrict you
The gods are militant
You faggots couldn't go the length
Like you was impotent, you ignorant
Your whole click gets split in half
You step in allah's path, and face allah's wrath, WHAT

[chorus] 2X
