Feat. Apathy, Breath of Judah

[Sample]

"Explorers... In the further regions of experience...
Demons to some... angels to others... Now you must
come with us..."

[Ikon]

Enter the dragon

With 3 immortal Surgeons

Ark of the covenant and the Holiest excursions

The search for the knowledge and the wisdom of the
sands

The Hologram sends you to the abode of the damned
Immortal like vampires;

Setting fires in the caverns of the unholy

Oh, the ancients all hope of Abraham

Send you to the sacred land

To change form, the daunting rituals that leave you
scorned

Crown of thorns adorns the unborn in which you
spawned

There is no shelter from the storm of Babylon's lost
children

I lead millions to the promised land;

The holy lamb

The planetary Hologram

Blowing your Shakra's to oblivion

Digital Man, Biblical man like Silian

Vanishing Breed, the Holy Throne

Presidents of United States are now Clones

The Zones of the Virus!

The eye of Sirius!

The last waltz of the tyrants-

The harvesting begins now!

Infinite information Like Wu Chi Tao

But How-

Will you withstand the power of the helix

The crucifixion of the phoenix

The Black thesis, will burn you

Give to you the darkest of afflictions

Mortal MC's face the verbal crucifixion

"I am in fact lacking confusion as to what's real, and what's illusion"

"I am in fact lacking confusion as to what's real, and what's illusion"

[Breath of Judah)

The infinite, grand planet
Is the Kha Shalamah, Most High
Called Ali Aba, astronomer
Roam the universe like Romulus
Indigenous with consciousness of Sirius
I am a 7 density light being
Transmanifest personally
In divine nation Atlantis rising
3 dimension radiation is extremely
For difficulty to cope with the body
Externally, in the centre of the galaxy, Alchemy
Spirits soul my commitment So that's efficient, receive
nine dimensions
Of cosmic expansion exquisitely
Philadelphian church, chosen city
Add instance to vortex's
Pleiadian Sequence Equinox's
At the zero point. Dialoguing
Keeping time flying
Sitting on carpet and Meditating
3 Immortals... Through portals!

"I am in fact lacking confusing as to what's real and what's illusion"

"I am in fact lacking confusing as to what's real and what's illusion"

[Apathy]

The plot thickens;
Through psychological crucifixions
I mar emcee's and travel lands guiding Christians
My writtens escape the earth in certain crisis
I Create raps for Christ and 12 righteous tribes
Educate with positive vibes
Devastate your dimension and nobody survives
Out of smoke we rise
Illuminating eyes and wise
Teaching lost fools that Yeshua never dies
I cry, try to cut off my air supply
I'm a transport to space, let the mother ship fly
Annuna, seven signs
Let the Dolphin be the Baptist
The self contained underwater breathing apparatus
In Atlantis, digital image screen enhances

Photographs of alien ships upon ya planets
Emerge from Volcanoes, Dread locks and Halo's
Presto change-o, I Morph to tornadoes
And tear up ya major metropolis
You fish tank guppies couldn't fuck with the octopus!
