It's been quite a long time
Since I saw you last
Funny how it made me smile
When I thought of the past
Didn't take you seriously back then
But now I couldn't wait to see you again

So I called you up
Didn't know what I should say
Just to hear your voice again
Would take my breath away
After what seemed like an eternity
Couldn't believe what I heard is meant for me

[Chorus]
Somebody said on the other line
You've been away for quite some time
He didn't know just how you've been
But my name, it sound familiar to him
For once a dark and lonely night
After you turned off all the lights
He would somehow hear you whispering my name

What must I've been thinking
From then on 'til now
That all this time you'd be waiting
And happily somehow
We'd pick up where we left off back then
But everything we did must come to an end

(Repeat Chorus 2x)

He would somehow hear you whispering my name
