[Planetary]:

In my historical oracle
I blast metaphorical
editorials educated
in my territorial get torn
heavily armed with seventy bombs
that'll blast devine like the heavenly song
Your men'll be gone
if they explore my deepest thought
i beat hearts in 2 then ask demons for chalk
I'm dreaming ta stalk
MCees in the dark I walk
Blindfolded the mine's golden
Watch how you talk
My style is an art
Recognize lycially purity
All hell breaks loose like a mall with no security
The dopest vocalist
with my third eye, I focus with
I proceed, flow with the speed of an INDY motorist
There's more to this than wasted
Shiny chains and bracelets
I hit tracks my toungue wait
for the brains to blaze it
Amazin angelic, tell it to your peoples
(Sample:Your mic and my mic, come y'all no equal)

[chorus]

Illedelph is like the sun 'cause we shine with rhymes
The Underground is like the moon you only see us at
times
and at times were like skies where the stars recline
Jedi Mind, Outer Space, coincide and combine

[Jus Allah]:

Raw poems, bury your body in catacombs
rip your soul from your limbs
like brims from Jim Jones
In the Twilight Zone we disperse cowards
Vampires that stalk earth on reversed hours
Nite cause we talk at the fasade
My latitude is God thoughts how my jaw

leave eternal scars
You left breathing out of tubes
Straws by the marksman, harnessin
Science for the malachin and charlatan
Raps will make your parallax
My domain has power to block synapse inside veins
War shots fired of by the army type warlocks
Devil's Plan is to have you drip in the Clorox
Beast deceiving us ways devious possessing
My peeps to walk streets with stolen heat like
Prometheus
Elements rushin you back to hell again
Illadelphians crush your skeleton into f**kin gelatin

Chorus

[Ikon the Verbal Hologram]:
Dont ever come at me with war
I've severed scores of orators
rappers fall onto all fours like minotaurs
with Jedi Mind and the planetary be bombin this
we stayin one step above you like a pharmacist
with Ominous detonate the bomb
Heads dread hallucinogenics in Vietnam
I spit a psalm create bombs like an Iraqi
Swear on the bible and then lie to Ecclesiastes

[Planet]
Assault and battery

[Ikon the Verbal Hologram]
Battle me that'll be what splits you
Store enormous amounts of energy in a pistol
we boa constrict you
The gods are militant
You faggots couldn't go the length
like you was impotent, you ignorant
Your whole click gets split in half
You step in allah's path, and face allah's wrath, WHAT

[chorus] 2X
