[Intro-Vinnie Paz]

Yeah, Jedi Mind

Vinnie Pazienza, the Enemy of Mankind

Servants in Heaven, Kings in Hell

Horrorcore, yeah, walk with me

[Verse 1-Vinnie Paz]

I pop a pill and zone, my voice alone will fuckin' kill your bones

The AR-15 beam leave you still as stone

I'm workin' twenty-four-seven while you chill at home

I'm on the block with my people where the killers roam

I'm in a killer zone, where police can trap me

I'm ready to go to war with them like we Iraqi

We in the last days, only darkness passes

No more pure air, only bloody muddy ashes

Yeah, you need to recognize the God of Seth

'Cause I was born inside of Egypt near the Gaza Strip

Don't make me cock the fifth, and put the flame to one

And thug it out like the Israeli's and Iranian's

Remember when I put the pen to the pad

When I heard "Style Wars" by Lakim Shabazz

Then in the lair, everything was constructed with

Stoupe

And y'all know that no one fuckin' with us as a group

[Chorus-Shara Worden]

When All the Light goes out where will you be?

When the darkness comes what will you see?

(When the lights go out)

When All the Light goes out where will you be?

(When the lights go out)

When the darkness comes what will you see?

[Verse 2-Vinnie Paz]

I'm a cannibal corpse, .38 snub splatter your thoughts

Peel your skin off of your body like animal cloth

I'm the reason for the Carthage in Hannibal's force

I'm the reason for the carnage in parable's lost

And I'll put the heater right where your lungs at

And none of y'all would be around if I could bring Pun

back

You want the horrorcore Vinnie? He brung that
Along with the .44 militant gun rap
I break bread with the brothers I trust
'Cause I know that if I'm ever in some trouble, they bust
Could never be us, we too raw for the rap now
Anybody with a tape recorder can rap now
I pull a twelve gauge shot at you, back down
And then the last thing you hear is the gat sound
From the city where they framed Mumia
We gonna break him out, run up with them flames and
heaters

[Chorus-Shara Worden]

When All the Light goes out where will you be?
When the darkness comes what will you see?
(When the lights go out)
When All the Light goes out where will you be?
(When the lights go out)
When the darkness comes what will you see?

[Verse 3-Vinnie Paz]

Yeah, yeah, I carry heavy fists, I'm a biological terrorist
If you ain't been in war, then you don't know what terror
is
You try to help people but do nothin' like therapists
It's basic rules to the game, cousin, you never snitch
Or you can see the type of lead that my Beretta spits
Or take you through the torture chamber and behead
the bitch
Yeah, I'll put your body to the blades and choppers
And teach you about the disruptive symbol of chakra's
If you believe what they tellin' you, the beast and them
won
That's why I speak about survival and need for a gun
I stand for what them thugs is reppin'
But they don't know the government is usin' drugs as
weapons
And drug injections, was taught by the prophets before
About the cavalry of shadowy prophets of war
It's hard of grip, so I spit at a different degrees
But the inner earth holds more water then seas

[Bridge-Shara Worden]

Who's gonna save you When All the Lights go out
It's time to reconcile, how you gonna go, how you
gonna go?
When the Lights go out, When the Lights go out
When the Lights go out, how you gonna go? Oh, oh, oh,
oh, oh
