"Give It Up"

When I see your face
In a crowded room
Although you are miles away
I know that you are with me here
Ooh
I guess the nitty gritty truth
Is too hard
So I pick out all the good parts
Where delusions work out for the better
So I just live in a world of my making
Where I know you'll
Give it up
Give it up
Give it to me
Give me love
Give me love
Give it to me
Cause I know you love me still
Always pleases me
When I feel your breath
On the collar of my shirt
I know that you are with me here
Ooh
I guess the nitty gritty truth
Is too hard
So I pick out all the good parts
Where delusions work out for the better
So I just live in a world of my making
Where I know you'll
Give it up
Give it up
Give it to me
Give me love
Give me love
Give it to me
Cause I know you love me still
Y'know insanity is easy
And my way of getting through this alive
Helps my heart to throw a party
Not die
Where I know you'll
Give it up

Give it up
Give it to me
Give me love
Give me love
Give it to me
Cause I know you love me still
Where I know you'll
Give it up
Give it up
Give it to me
Give me love
Give me love
Give it to me
Cause I know you love me still
