The kking of the castle
Has got you under lock and key

Yeah

I'm armed and ready for battle
It's time to face the enemy

Yeah

I'll put up the fight
Not giving up
Now the pressure's on, show me what you got
Won't accept defeat, I'll never stop
I'll do whatever, whatever

Imma go get get get, go getter
And Imma go get get get, go getter
I never gonna quit, I ain't no quitter
Knock me down and I'll get up again...

You are my princess
The one I need to liberate (liberate, liberate yeah)
They can burn all the bridges
But Imma get there anyway
Get there anyway, yeah

Now it's time, time to step it up
Want you to be mine no matter what
And I give my life just to feel your touch
Can't you see it in my eyes

Imma go get get get, go getter
And Imma go get get get, go getter
I never gonna quit, I ain;t no quitter
Knock me down and I'll get up again...

Cause Imma go get get get, go getter
And Imma go get get get, go getter
I never gonna quit, I ain;t no quitter
Knock me down and I'll get up again...

I'm not gonna get back down, down, no
I'm not living without your love
Cause it's priceless
And I'll fight for it until I'm the last one standing

Oh
They can burn all the bridges
It won't matter
I'll be the last one standing...

Imma go ge-getter
I-imma go getter
Imma go
Imma go getter getter ge-getter

Imma go get get get, go getter
And Imma go get get get, go getter
I never gonna quit I ain't no quitter
Knock me down and I'll get up again...

Cause Imma go get get get, go getter
And Imma go get get get, go getter
I never gonna quit I ain't no quitter
Knock me down and I'll get up again...

Now it's the time, time to step it up (step it up)
Want you to be mine no matter what (matter what)
And I give my life just to feel your touch (feel your touch)
Can't you see it in my eyes

Cause Imma go...
Getter
And Imma go...
Getter
And Imma go...
Getter
Imma go getter
