She has always watched over me  
She takes good care of me  
She is such an integral part of me  
That I forgot who I was  
And I forgot she was there  
For me

We have traveled this world for years  
We have consoled each other's fears  
We have dried each other's tears  
Yet always in doubt  
And never in doubt  
Of me

With a fever  
With a passion  
When a girl?  
With compassion

In a rage  
In distress, girl  
When she's screaming  
Or when she's lustful

With a fever  
With a passion  
When a girl?  
With compassion

In a rage  
In distress, girl  
When she's screaming  
Or when she's lustful

With a fever  
With a passion  
When a girl?  
With compassion

In a rage  
In distress, girl

When she's screaming  
Or when she's lustful

She has always been there for me  
She takes good care of me  
She is such an integral part of me  
I forgot who I was  
And I forgot she was there  
For me

We have traveled this world for years  
We have consoled each other's fears  
We have dried each other's tears  
Yet always in doubt  
And never in doubt  
Of me

With a fever  
With a passion  
When a girl?  
With compassion

In a rage  
In distress, girl  
When she's screaming  
Or when she's lustful

With a fever  
With a passion  
When a girl?  
With compassion

In a rage  
In distress, girl  
When she's screaming  
Or when she's lustful
