Take a look a around  
You tell me what you see  
Just a little run down  
It's all right with me  
I've been away but I'm back to stay  
I'm back in the neighbourhood  
(In the neighbourhood)  
Just like I knew that I would  
(In the niehgbourhood)  
I'm back in the neighbourhood  
(In the neighbourhood)

Now friends that stayed  
I fooling with the gang  
Not the same old gang  
No one gives a damn  
Oh I've been away but I'm back to stay  
I'm back in the neighbourhood  
(In the neighbourhood)  
Just like I knew that I would  
(In the niehgbourhood)  
I'm back in the neighbourhood  
(In the neighbourhood)

A few old tunes in the air  
Happy times that plan out to anywhere  
Back streets where the kids meet  
To kick the can around  
We all love ya we would let them pull you down

People say hello (what you mean hello)  
They ask me where I've been  
All around the world  
It's the neatest thing  
Oh I've been away but I'm back to stay  
I'm back in the neighbourhood  
(In the neighbourhood)  
Just like I knew that I would  
(In the niehgbourhood)  
I'm back in the neighbourhood  
(In the neighbourhood)  
Just like I knew that I would

(In the neighbourhood)  
I'm back in the I'm back in the  
I'm back in the neighbourhood  
(In the neighbourhood)

I'm back in the neighbourhood  
(In the neighbourhood)  
Just like I knew that I would  
(In the neighbourhood)  
I'm back in the neighbourhood  
(In the neighbourhood)  
Things rarely work out this good  
(In the neighbourhood)  
I'm back in the I'm back in the  
I'm back in the neighbourhood  
(In the neighbourhood)  
Just like I knew that I would  
(In the neighbourhood)  
I'm back in the neighbourhood  
(In the neighbourhood)  
Yeah  
(In the neighbourhood)  
I'm back in the I'm back in the  
I'm back in the neighbourhood  
(In the neighbourhood)
