Aint no doubt about it, it must be love
One little kiss from you and I feel
Glad all over, oh mercy
I think that its silly but I'm glad all over
Over, over
Try to tell ya that I'm cookin inside
When were cheek to cheek
Temperatures low, fever is high
I can't speak, I'm to weak
Come on hunny bunny do it one more time
Everytime you do I feel
Glad all over, oh mercy
Real cool Pappy and I'm happy and I'm glad all over
Over, over
Your touch goes through me like electric sparks
Every part of me glows
Don't take much to see what I got
Cuz it shows, yes it shows
Come on hunny bunny do it one more time
Every time you do well I feel
Glad all over, oh mercy
Real cool Pappy and I'm happy and I'm glad all over
Hey, hey, hey
Aint no doubt about it, it must be love
One little kiss from you and I feel
Glad all over, oh mercy
I think that its silly but I'm gald all over
Over, over, over, over, over, over, over, (Fade)
