Well I've been searching uphill down and around and
round
Lifes lonely highway
Just traveling round, nothing to be found
Now I know, yes I know that leaving you was wrong
So I'm coming on home, won't be long
Now If I bring you back the love I had
Would you see it through
Well I've been searching uphill down and around and
round
Lifes lonely highway
Just traveling round, nothing to be found
Now I know, yes I know that leaving you was wrong
So I'm coming on home baby, won't be long
If I bring you back the love I had
Would you see it through
