I used to work and take a salary  
In a hole up near a foundry  
But it did not take me too long  
To get my boots on a so long  
Long Spanish boots on a so long

I took a day job in Bethlehem  
I nearly threw in the towel then  
But it did not take me too long  
To get my boots on a so long  
High Spanish boots on a so long  
Dig it

I took a Spanish haberdashery  
Restored with 15th century tapestry  
But oh, Mr. Nesbitt got the best of me  
So I strapped on my boots and said so long  
Laced up my high boots and so long  
Goodbye

I'm on a job you see  
Cause my old boots they mean too much to me  
Leather boots are just a mystery  
Put on my boots and said so long  
High Spanish boots on and so long  
Put on my boots and said so long

Those old Spanish boots

Put on my boots and said so long  
High spanish boots

Yeah
