There's a right way of thinking and a wrong way too
I got a wrong way of thinking honey that's about you
You better believe what I'm saying to you
(Believe believe believe believe)
I don't want us to be through that's why I'm telling you
the truth
Believe believe believe believe whoa
(Believe believe believe believe)

I'm trying hard to find a way to win your heart
I've never tried harder to play it smart
You better believe what I'm saying to you
(Believe believe believe believe)
I'd give up my style just to see you smile
Believe believe believe believe rock
(Believe believe believe believe)

There's a right way of thinking and a wrong way too
I got a wrong way of thinking honey that's about you
You better believe what I'm saying about you
(Believe believe believe believe)
I don't want us to be through that's why I'm telling you
the truth
Believe believe believe believe
(Believe believe believe believe)

You better believe what I'm saying to you
Cause if you turn me down I'm afraid we're through
So give me a chance make it more than a glance with
you
Believe believe believe believe believe believe believe
believe believe believe
(Believe believe believe believe believe believe believe
believe believe believe)
