All Days Shine

down in the corner of a sleepless night  
I was looking for a pen  
I came across this photograph  
I was wondering where we'd been  
I know it's all about the here and now  
so I got lost in you

all days shine  
all days shine  
all days shine  
underneath the rust  
over the fall of time  
all days shine

there's just too many bills to pay  
so many debts unknown  
we received the invitation late'  
so we decided to stay home  
I've been in this room before  
not a curtain to be found
