I felt like everything was changing  
It was just the way we were moving  
And since I don't really care what people think of me no  
more  
I jumped into the ruby couldren  
Into the fires burning wild  
And now I'm waiting for the fool to take the cure  
I wondered about the numbers on those fallen crosses  
And then it came upon me  
Right there while you were sleeping sound

Oh baby did you miss me  
I never meant to leave you lonely  
And did you wonder why we came this way  
I don't know of any reasons  
I just know who I'm pleasing now  
I'm just doing the best I can to make it home

Here's a little riddle for you  
What do you break when you name it out loud  
It's cold as hell and stranger than it seems  
Down on the beat it was barren  
I seen the light and I'm glad it came to me  
It was on my way back home  
From an Indiana town  
I was feeling dizzy  
The dream came to me like a pounding  
I wondered where in the hell I'd been  
And what does this mean to me now

Oh baby did you miss me  
I never meant to leave you lonely  
I'm so sorry for all the pain I've caused  
I don't know of any reason  
I just know the gasoline on it  
Just made it worse  
When water was all  
I needed truth be known  
Thank you for waiting so long
