Ooh, fall in light, fall in light, fall in light, fall in light

Feel no shame for what you are
Feel no shame for what you are
Feel no shame for what you are
Feel no shame for what you are
Feel no shame for what you are
As you now are in your blood, fall in light

Feel no shame for what you are
Feel no shame for what you are
Feel it as a water fall, fall in light
Ooh, fall in light, fall in light, fall in light
Ooh, fall in light, fall in light, fall in light
Grow in light

Stand absolved
Behind your electric chair, dancing
Stand absolved
Behind your electric chair, dancing
Past the sound within the sound
Past the voice within the voice

Leave your office, run past your funeral
Leave your home, car, leave your pulpit
Join us in the streets where we
Join us in the streets where we
Don't belong, don't belong
You and the stars, throwing light

Ooh, fall, fall
Ooh, fall in light, fall in light, fall in light
Ooh, fall in light, fall in light, fall in light
Grow in light
