I come, with a heart that is desperate
And I cry, wanting just to be heard by You
And I pray, that You won't remain silent
That You'll stand here beside me
That my heart won't call out in vain

(Chorus:)

Cause all I want, is just to see You Jesus
And I long, just to hear Your voice
And I need, just to be near You
Cause Your presence is all I want

I come, with a heart that is hungry
And I sing, wanting You just to know my love
And I pray, that my life will be counted
For the sake of Your kingdom
That my heart will be truly Yours

(Chorus)

One day we'll look on Your face
We'll see You in all of Your glory
And we won't need the sun,
And we won't need the moon
All we will need is You

(Chorus 2x)
