If I could play the same way twice,  
I would fall to the ground.  
Everytime i grove i play it different.  
(Woah)

If you would ever fall asleep  
In my presence,  
I would see a halo around.  
(Around)

(Chorus)  
Looking around the room.  
Working away from you.  
Singing the melodies.  
Living with rivalries.  
Can't even find the tone.

Can't even play the show.  
Oh the world surrounding me.

I'd like to travel through a very sandy desert.  
There's no time.  
Walking with the world to find the perfect distance.  
It's too far.  
If i could change the colors of my image,  
I don't care.  
And the song from the first note i sang.  
Again.

(Chorus x2)
