Joanna
You burn me like fire
Joanna
You're my only desire
When I'm lost in the dark
You come right back for me
So I'd rather
Never give the time
To some other flea

I never want another girl
I never want another girl
If all you need is to be sure
I never want another girl

Joanna I see you're the one meant for me
If you never had the time to see
How perfect we'd be
I'd be lost and alone
I'd be all on my own
Oh joanna I promise I'm the one you need, oh

I never want another girl
I never want another girl
If all you need is to be sure
Why would I want another girl
