I leave home with the things I need.  
I drive around on the same old streets.  
We get tired of the same old things.  
Then hang it up and relax a bit  
I got some friends that got the right idea.  
Who make it better, make it disappear.  
I've been home for way too long, it seems to me...

That now it's come to what you've wanted.  
How to deal with all your problems.  
What you need is right in front.  
Why don't you take a look?

[Chorus:]

I feel just like the way you do,  
So don't even worry about the truth.  
You don't need to worry baby  
You don't need to worry baby  
I've got plans, in time they'll follow through.  
We've got all the time we need, it's true.  
You don't need to worry baby  
You don't need to worry

We left off in a little of a rush,  
I had things to say but I forgot.  
We left time, but we didn't make enough.  
I need some time before I talk  
I feel just like the way you do  
(We feel just like the way you do! )

Cause now it's come to what you've wanted.  
How to deal with all your problems.  
What you need is right in front.  
Why don't you take a look?

[Chorus]

And I don't know my own plans.  
I never want to be the one to fall and lose it all.  
What are you gonna do when what you think  
And what you know all comes down to nothing?  
You better stand for something.

I take my time to lose it all,  
I never want to be the one who cries about it all.  
I never want to be the one who can't carry on  
And make the best of something  
I can't

[Chorus]

(Cause now it's come to what you've wanted.  
How to deal with all your problems.  
What you need is right in front.  
Why don't you take a look?)
