Last chat I called it off  
I heard a blow before the girl was off  
Next one I told the truth  
I told her, "I don't think I'll ever be the one for you"  
But can we still be friends  
It took some years for that  
Last one, we sat in the car  
I told her, "I don't want to be the one to break your heart"  
Before that we were the best of friends  
I'm still not sure how it ever ended, but we keep in touch  
Although we don't say much  
And who the hell was I to stir it up  
It'll come and go

Say bye old friends  
Pushed away my old friends  
In a way, some would say  
(Was I the only one to make it right)  
Was I the only one to make it right  
People come and go

I don't want to be the one to lie  
I keep my mouth with the words strapped tight  
I get around when I know it's safe to say

Hey, babe  
Won't you stay  
Don't leave tonight  
Don't leave tonight this way  
Every day turns out the  
Hey, babe  
Don't leave tonight  
Don't leave tonight this way  
Every day can't stay the same

It'll come and go
