Don't leave me no clues, why don't you say what you  
say what you wanna say?  
We bend the truth to make an easier get away  
When it's time, you stand there  
It's your life, I don't care  
Don't take a swing if you're not ready to dish it out  
I want to know if I can trust what you're saying now  
When life can be simple  
You make it miserable

But if something goes wrong  
Just tell me one thing, that's all  
Don't be so ruthless, oh no  
Don't be that way

So I say (na-na, na-na, na-na, na-na)  
The only way I can explain it  
(Na-na, na-na, na-na, na-na)  
If it's last call, then let's go all in

Don't want to speak if they don't want to hear what you  
say  
Then take a seat and let me say it a different way  
There's different motives, I think you noticed  
We took a day to find a way to decode the pain  
To break the calm, I killed the drama to save the name  
If you leave, it's over  
So don't make it harder

But no one's listening
