I know that you've gone away
And your afraid of what you feel inside
And I know that it's much to late
But it's okay it's time to ease your mind
That first I had trouble just letting you go
It all was a blur, I was losing control
But now I can see that it's better this way
The choices I made pushed you further away

Chorus

So go on with your life
I won't stand in the way
Because I know that tomorrow will bring better days
And I made some mistakes
But I want you to see
That I finally realize that we are not meant to be

Trying to find a way
To make you stay and keep you here with me
But I know that the greatest gift that I could give
Is just to set you free
So I'm stepping aside gonna swallow my pride
Cause I know you deserve more out of life
And you have all my blessings
You'll be in my prayers
And just know if you need me
I'll always be there

Chorus

So go on with your life
I won't stand in the way
Cause I know that tomorrow will bring better days
And I made some mistakes
But I want you to see
That I finally realize that we are not meant to be

Bridge

You're everything that I wish I could be
And I can't describe what your love means to me
Your tender heart and compassion so sweet
Something for the whole world to see

Chorus (till end)
So go on with your life
I won't stand in the way
Because I know that tomorrow will bring better days
And I made some mistakes
But I want you to see
That I finally realize that we are not meant to be
