Time has come, I have 2 go the lights are calling me
I have 2 know b4 I go, will I be set free?
With frozen tears, it's so unfair 2 leave with just few
words
This chosen life of sad goodbyes that often goes
unheard
Girl, just close your eyes & dream about 2morrow
Where our future lies will overcome the sorrow...
I miss your love
Don't wanna say goodbye... instead we'll say goodnight
Don't wanna say goodbye.... you're always on my mind
& While Im on my way, I'll dream of when Im home 2
stay
Don't wanna say goodbye
How will I get by if u decide u think u have 2 go?
Its more than I can visualize Im man enough 2 know
There is no word that's been said or heard that express
the way I feel
It won't be long till again it's strong this love we know
so real
Girl, just close your eyes & dream about 2morrow
Where our future lies will overcome the sorrow...
I miss your love
Don't wanna say goodbye... instead we'll say goodnight
Don't wanna say goodbye.... you're always on my mind
& While Im on my way, I'll dream of when Im home 2
stay
Don't wanna say goodbye
Girl, just close your eyes & dream about 2morrow
Where our future lies will overcome the sorrow...
I miss your love
Don't wanna say goodbye... instead we'll say goodnight
Don't wanna say goodbye.... you're always on my mind
& While Im on my way, I'll dream of when Im home 2
stay
Don't wanna say goodbye, yea, goodbye...
