We live dreams in black & white
All the colour's faded away
Away from our lives
I feel there's still time 2 change
Relive everything u learned as a child
It's somewhere in your eyes
Got a vision of another day
We can live & love our dreams away
Bogether we can stop the rain
& drown all the pain, come on
(Chorus:)
Save me, bathe me
In your mercy I'm helpless, Im looking 4 u
2 say, maybe, baby
We will finally find our way
U gotta show me, hold me
There's a message were missing, it's all in the air
Come on, save me, bathe me
So long, the fears have crossed my mind
No end 2 all that closed our eyes
Closed our eyes again
One love, the almighty play
Freedom 2 raise our hands up high
4ever we will fly
There's a bind we need 2 fill our souls
There's a meaning behind the eternal goal
Together we can stop the rain
Drown all the pain, come on
(Chorus)
I feel there's still time 2 change
Relive everything u learned as a child
It's somewhere in your eyes
(Chorus)
