Stand up and shout  
Stand up stand up stand up and let it out  
Stand up and shout  
Stand up stand up

I know what you want and what your thinking  
I can free your sexuality  
No ones ever tortured you with pleasure  
Pleasures all you'll ever feel from me

Stand up and shout  
Stand up stand up stand up and let it out  
Stand up and shout  
Stand up stand up

I just want to see you in the garden  
Dressed up as you came into this world  
Shining through the candle of deception  
Lighting up the underlying girl

Stand up and shout  
Stand up stand up stand up and let it out  
Stand up and shout  
Stand up stand up

Stand up and shout  
Stand up stand up stand up and let it out  
Stand up and shout  
Stand up stand up
