Long b4 the day our eyes met
I'd seen your face many times in my dreams
U were the angel who took my hand
Showed me heaven on earth
Our bodies melted like a burning candle
Who's flame refused 2 die

And if your wishing well runs dry
The tears in my eyes will rain on your soul
& if your dreams all fade from view
I'll be by your side
& I'll still be loving u

All of the years in search of u
Were lessons I had 2 learn
But now that I found u,
I know just what I need 2 do
2 fulfill our destiny 2gether

In your arms I'm an innocent child
In need of your touch
I don't know how I made it this far
This far without u

If your wishing well runs dry
The tears in my eyes will rain on your soul
& if your dreams all fade from view
I'll be by your side
& I'll still be loving u

I now know I've saved the best 4 last
Cuz with u I know it's 4ever

I will still be loving u...
Till the end of time
I will still be loving u...
That's how long I pledge this heart of mine
