Baby, Baby  
You know that I provide  
Anything and everything  
That you need to be satisfied

And when you do the same for me  
It feels like a dream  
But when the weather changes  
I find it so hard to breathe

Cause your words strike like lightning  
From rumbling thunder  
You're 'sposed to love me  
But sometimes I wonder

Give me shelter girl

Gotta find me a way to get through this lonely time  
Somethin' to ease my mind  
That everything'll be all right  
Won't you show me the way to the place  
Where things are nice and slow  
Our love combined will shine  
Just like a rainbow

Whisper to me  
It's time to change the tone  
Everything that's goin' on  
is better left alone  
But we play the waiting game  
Of who'll apologize  
But while we waste our time  
We're movin' further away from the light

Cause your kiss is like sunshine  
That brings light to my eyes  
I plead that this one time  
You'll make things all right

Keep me from the rain

Gotta find me a way to get through this lonely time  
Somethin' to ease my mind  
That everything'll be all right  
Won't you show me the way to the place  
Where things are nice and slow  
Our love combined will shine  
Just like a rainbow

A soulful touch can change it all  
The pain'll go away  
Those deeper things they can't be solved  
So throw them away  
And then bury them  
Once and for all  
The grace of God has brought us here  
Together you and I  
So stop playin' and enjoy your life cause  
You know that I love you and need you  
To hold me girl  
And don't you let me go

Gotta find me a way to get through this lonely time  
Somethin' to ease my mind  
That everything'll be all right  
Won't you show me the way to the place  
Where things are nice and slow  
Our love combined will shine  
Just like a rainbow

Gotta find me a way to get through this lonely time  
Somethin' to ease my mind  
That everything'll be all right  
Won't you show me the way to the place  
Where things are nice and slow  
Our love combined will shine  
Just like a rainbow
